Property Description

General Site Overview:

Quincy is located just seven miles south of downtown Boston, convenient by car or public transportation. This historic city, birthplace to two U.S. Presidents, offers abundant culture, notable landmarks and an appealing mixture of tradition and current society. With 27 miles of coastline, nearly a dozen beaches and a thriving city center, it is logical that Quincy was recently named by BusinessWeek magazine the best town in the state to raise children.

Building Description:

Formerly the Elk's Building, this downtown Georgian structure has been converted into an elegant four-level office building. On the exterior, many original features, such as the arched windows, columned entrance and brick and granite façade, have been retained. The dramatically lit interior is completely new and incorporates an atrium, marble floors, and mahogany doors and woodwork.

Unit Details:

Unit #200 offers lots of room, a private kitchen and several offices. The floor to ceiling windows allow plentiful natural light into this space. Formerly occupied by a law firm, this 4,162 square foot unit is spacious and features such elements as wainscoting, built-in bookshelves and alcoves for files.
